## WHERE TO FIND US

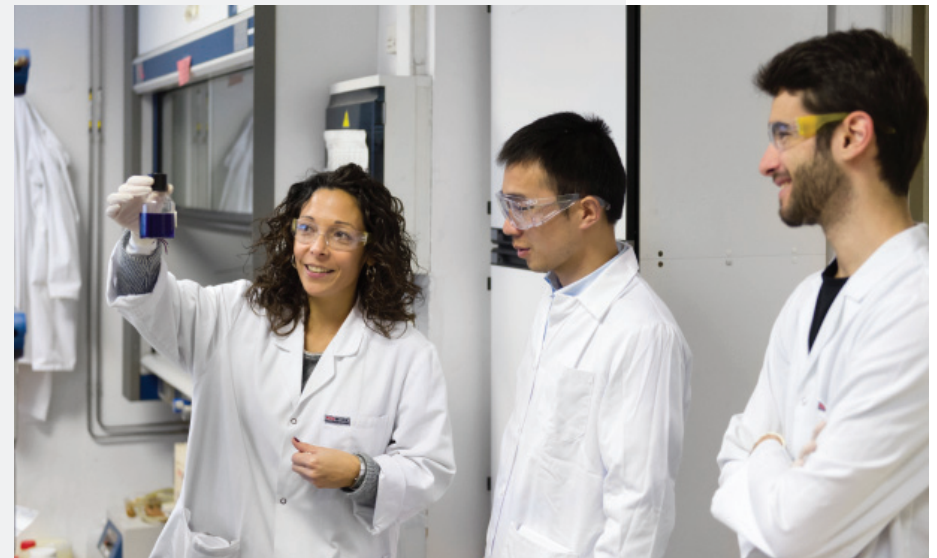

Campus de la UAB, 08193  
Bellaterra,  
Barcelona, Spain

ICMAB is committed to the principles of the Code of Conduct for the Recruitment of Researchers of the European Commission. We are an equal opportunity employer committed to diversity and inclusion. We are pleased to consider all qualified applicants for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, age, disability or any other basis protected by applicable state or local law.

# Why ICMAB?

ICMAB is one of the world's leading institutes in Materials Science research, located very close to Barcelona. One of the main ICMAB's strategic objectives and missions is to recruit top worldwide class scientists in our fields of research with an outstanding track record.

ICMAB provides facilities, state-of-the-art equipment and most importantly, excellent scientists and professionals, to assure you a rewarding career. A competitive and multidisciplinary training program will be offered to the new researchers to foster the development of a professional career, tailored to your needs.

The diversity of our students and the interdisciplinary research fields related to Materials Science ensure an enriching and inspiring working environment. If you are an enthusiastic and highly motivated researcher and would like to work in a multidisciplinary and multicultural environment, join us! ICMAB is the place to be!

WOULD YOU LIKE TO CARRY OUT A SHORT-TERM STAY/ INTERNSHIP OR FINAL PROJECT WITHIN THE SCOPE OF YOUR UNDERGRADUATE OR MASTER STUDIES?

ICMAB welcomes students from national or international universities who become associated with us for a limited period of time for training purposes, carrying out research projects. ICMAB gives selected students the opportunity to participate in our rich scientific life and to benefit from the experience of our researchers. Students are integrated in an ICMAB group, and conduct their activities under the supervision of the researchers.

#### Severo Ochoa collaboration grants for Master students

With the aim of attracting exceptional bachelor and graduate students, calls for master students for a research internship of 5 months will open on May-June 2018 and 2019.

## RESEARCH TOPICS

Within our Severo Ochoa project "Smart FUNCTIONAL MATERIALS for social grand challenges (FUNMAT)", and the ICMAB coordinated DOCFAM MSCA-COFUND project, a number of interesting positions are available for graduate and postdoctoral researchers in the areas of:

**CLEAN AND SECURE ENERGY**

Materials for photovoltaics, thermoelectrics, batteries, supercapacitors, and superconducting materials.

**LOW COST AND SUSTAINABLE ELECTRONICS**

Oxide electronics and molecular electronics.

**SMART NANOMEDICINE**

Nanomaterials for therapy, diagnosis and tissue repair.

We welcome applications from national and international candidates from many different disciplines and at all career levels.

Feel free to contact our Strategic Managing Unit, **Dr. Jorge Pérez**, ([jperez@icmab.es](mailto:jperez@icmab.es)) and **Montse Salas** ([msalas@icmab.es](mailto:msalas@icmab.es)), and please browse our **Jobs Openings and Fellowships** page at: [icmab.es/jobs](http://icmab.es/jobs).

For spontaneous applications, you can submit a cover letter and CV to be considered for relevant positions in the future to [info@icmab.es](mailto:info@icmab.es).

**ARE YOU INTERESTED IN A POSITION AT ICMAB?**

WOULD YOU LIKE TO OBTAIN A PHD DEGREE?

ICMAB, in partnership with the Universitat Autònoma de Barcelona, offers the possibility to do a PhD Program in the research topics pursued by the Research Groups of the institute. ICMAB

PhD-students are integrated into an ICMAB group, and conduct their studies under the supervision of one of the researchers.

#### PhD positions within the MSCA-COFUND DOC-FAM project

New PhD positions will open in Sept. 2018 for a 3 years PhD position within the DOCTORAL training program in Functional Advanced Materials of the MSCA-COFUND project, coordinated by ICMAB.

#### PhD positions within the MSCA-COFUND "INPHINIT" project from "La Caixa"

An innovative doctoral program for talented early-stage researchers coordinated by "la Caixa" foundation.

#### Severo Ochoa PhD positions

Several PhD positions are available as part of the "National Program for the Promotion of Talent and Its Employability" from the Spanish Ministry of Economy, Industry and Competitiveness (MEIC).

PhD positions are available at the Institute on a yearly basis related to regional (AGAUR-FI) and national (FPU, FPI) projects.

WOULD YOU LIKE TO CARRY OUT A POSTDOCTORAL RESEARCH?

A postdoctoral researcher at ICMAB enhances his/her scientific training after completing the PhD. Postdoctoral researchers at ICMAB are integrated in a group and conduct their activities under the supervision of one of the PI researchers.

#### Postdoc positions within the MSCA-COFUND P-SPHERE project

This COFUND project, the only COFUND that finances postdoc positions in Spain, is coordinated by the UAB and participated by many research centers of the UAB Sphere, including ICMAB.

#### Postdoc positions within the Junior Leader Programme from "la Caixa"

Postdoctoral fellowships at universities and research centres of Spain are offered through this innovative program, aimed at hiring excellent researchers of any nationality who wish to continue their research career in Spain.

#### FIP and H2020 PhD and postdoctoral positions

Several positions open as part of our internal calls of Frontier Interdisciplinary Projects (FIPs). The Institute is also very proactive in European projects in H2020, participating in different calls within the three pillars (Excellent Science, Industrial Leadership, Societal Challenges).

Postdoctoral positions are available at the Institute on a yearly basis related to regional (AGAUR-BDP) and national (Juan de la Cierva) projects.
